

# INVITATION

## Lecture

Time in Range, its use and implication in the treatment of (children with) type 1 diabetes.

*Beyond A1c: new paradigms in the treatment of type 1 diabetes*

By Professor Thomas Danne, Professor of Pediatrics, Chief Physician, Department of General Pediatrics, Children's Hospital „Auf der Bult“, Hannover Medical School, Germany

Dear doctor,

We are very pleased to invite you for the lecture of Professor Thomas Danne. The duration will be 1 hour and accreditation has been requested for 1 point.

The lecture will take place on:

Date : .....  
Hospital, address : .....  
Time : .....  
Room : .....

We are looking forward to seeing you there!  
Warm regards,

**Prof. Dr. Thomas Danne** is the Director of the Department of General Pediatrics Endocrinology/Diabetology & Clinical Research at the "Auf der Bult" Hospital for Children and Adolescents, Hannover Medical School, Germany, which is the largest pediatric diabetes center in Germany. Presently he is appointed as Chairman of the SWEET-project ([www.sweet-project.eu](http://www.sweet-project.eu)) and work-package leader of the INNODIA-project ([www.innodia.eu](http://www.innodia.eu)). He is the recipient of the "Lifetime Achievement Award" of the International Diabetes Federation 2017 and the "Helmut-Otto-Medal" and the "Hagedorn-Prize" of the German Diabetes Association. He is the Past-President of the International Society for Pediatric and Adolescent Diabetes (ISPAD), the German Diabetes Association (DDG) and the German Diabetes Aid (diabetesDE). He is a former Research Fellow of the Joslin Diabetes Center of Harvard Medical School in Boston. His research interests include basic and clinical research in pediatric diabetology with special emphasis on new insulins, insulin pumps, glucose sensors and the artificial pancreas.

This training is made possible by Sanofi. Internists, paediatricians and diabetes nurses are invited to this lecture. Prof. Danne is paediatric chair of Endo-ERN Main Thematic Group "Genetic Disorders of Glucose and Insulin Homeostasis" ([www.endo-ern.eu](http://www.endo-ern.eu)).
