

Clinical Patient Management System - Newsletter

Issue 3, Month 2020/21

CPMS news

* Managing your notifications:

- » As you might have noticed, the daily notifications have been changed. You can manage your notifications settings after logging in to CPMS via these steps: Click on Notifications (under User Settings) (Fig1). Now you can change the Optional Notifications and how frequently you wish to receive your Task Reminders and Meeting Reminders (Fig2)

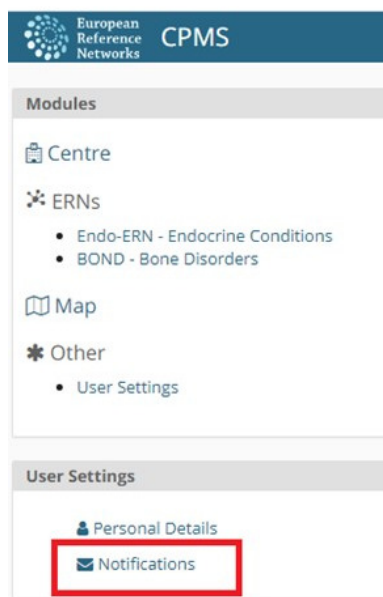

Fig 1.

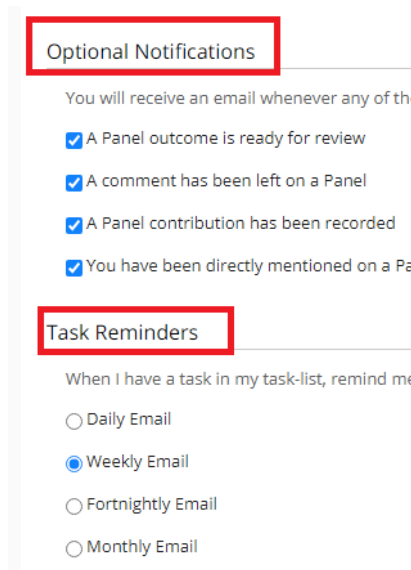

Fig 2.

* CPMS top five priorities

- » The coordinators of all 24 ERNs discussed their preferences for the top five CPMS improvements. These will be addressed by the European commission.
1. Functionality of the system
 2. Simplified access
 3. Simplified workflow
 4. Easier selection of panel members
 5. Option to upload large volume data

Coming up!

* The new simplified workflow

- » A new workflow is being created at the moment, and is now in testing phase. Here you can see a quick preview of how the new panels will look like. As you can see (Fig3), the tracker with all the different stages (open, panel selection, data completion etc.) has disappeared and has been replaced by different tabs (Consultation Form, Attachments, Panel Members, Meetings, Contributions & Outcome) that can be used in the same stage 'Panel in Progress'. This will make it easier to manager your panels! The implementation date is still unknown, but it's now the top priority for the developers.

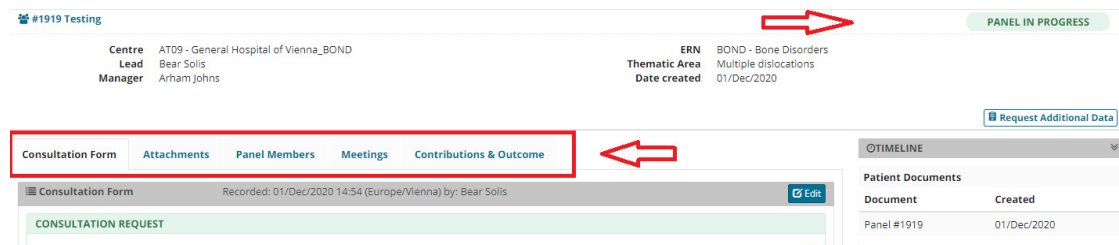

Fig3.

Statistics:

- *Amount of registered users: 277
- *Amount of monthly active users: 48-100
- *Total amount of newly opened panels: 100

Help & support:

- * You can find help & support via different ways:
 - » Official Training Videos, Webinars and User Manual on the CPMS homepage (after logging in)
 - » On our website <https://endo-ern.eu/activities/clinical-activities-ehealth/cpms/> (this page will be changed in the near future and supplemented with our webinars and newly created short manuals)
 - » Send us your question via email: cpmshelpdesk@endo.ern-net.eu
 - » You can also request for an online training / support session via GotoWebinar, or
 - » Ask for the login details of the CPMS training environment
