« 1 »

Organisation marked with (request submitted) can already be used to request access.

← Step 1 : select an application	Cancel	Step 3 : select an access profile →

- Select which type of access profile you are requesting (mostly only HP, so you have to remove the other V's in the tickboxes) and click on 'Step 4: type a comment' (see below)

- Type a comment (not mandatory) and click on 'Submit request access' (see below)

- After logging in and after registration you will be able to login to the CPMS Guest Virtual Center. This can take a couple of days. Your password is your EU login password.

- You can also find more information about the Guest Virtual Center in the official CPMS User Guide:

4.4. Guest Dashboard

As an uncommon user, Guest or an external Health Professional may be given access to **enrol** patients and seek assistance from an ERN. Unlike typical users in CPMS, Guest HP will be assigned to a "Guest Virtual Centre" as virtual **centre**.

The "guest" Dashboard allows guest **users** to enrol their patients and participate in panels they create themselves

Figure 7: Guest Dashboard

When the ERN Coordinator accepts the guest's invitation, they assign a lead and grant them access to the ERN dashboard as a guest. The guest will not have access to an actual Healthcare Provider (Centre) inside CPMS. Instead they will be given access to a Virtual Centre inside the ERN they requested access to. They can enrol Patients, see a list of already enrolled patients and also any open Panels. The Guest user can open a panel and will be part of it. Note that it is not possible for a guest user to act as the lead of a panel.

Important: A guest user is a member of CPMS for 90 days. Then if he/she is not participating to a panel, the account will be deactivated.
