

“Collaborating for better understanding of heart & fertility risks in TS ”

at Bolton Stadium Hotel, De Havilland Way, Bolton,(near Manchester) BL6 6SF

**An Education Day open to all Healthcare Professionals involved in the
Care of a girl or a woman with Turner Syndrome [TS]**

The Turner Syndrome Support Society [UK] is proud to be hosting this event with support from Novo Nordisk. This is a day that was planned for the 10th Turner Syndrome International Conference [TSI2020] but it had to be cancelled because of the pandemic. Our Clinical Advisory Board are helping us plan the programme we are pleased to confirm we have some wonderful speakers.

The theme for this Education Day is “Collaborating for better understanding of heart & fertility risks in TS ”

All too often, we hear about girls and ladies with TS having to make choices regarding heart health care, treatment, and surgery. This can often have implications for their fertility options. Requiring the girls, ladies, and their families having to make complex decisions affecting their future health. Both healthcare professionals and families want the best for their patients. We thought bringing you together to discuss the latest research findings and clinic experiences from different countries would be beneficial. We wanted to provide an opportunity for Health Care Professionals to come together to share their expertise. We will have expert panel discussions, short presentations, and poster presentations.

This an open invitation to any Health Care professional interested in TS to attend as a delegate and take part in discussions. Please share this invitation but be aware that places are limited.

A full-day education programme

An opportunity to submit a 10-minute oral presentation and or a poster

***A rare opportunity to meet colleagues with TS Specialist knowledge to share
and hear personal stories from individuals who have TS***

Costs are £75 per person and booking is available via this link

<https://TSSSUKMeetTheExpertDay.eventbrite.co.uk> or via www.tss.org.uk

Oral & Poster Presentation Submissions to Arlene Smyth

by 5th of January 2024 – turner.syndrome@tss.org.uk

Supported by Novo Nordisk , and the TSSS UK

Turner Syndrome Support Society UK
