

# RECOGNISING DISABILITIES AND BARRIERS!

Key findings from a Rare Barometer survey  
on the impact of living with a rare disease

February 2025

 <p><b>10 July</b> <b>8 Sept. 2024</b></p>	 <p><b>9591</b> respondents in Europe</p>	 <p><b>1643</b> rare diseases represented</p>	 <p><b>43</b> countries</p>
---	--	--	--

## 1 MOST PEOPLE WITH RARE DISEASES LIVE WITH DISABILITIES

8/10
 people with rare diseases  
live with disabilities

 Washington Group Short Set on Functioning (WG-SS): 87% of the participants had 'some difficulties', 'a lot of difficulties' or 'could not at all' see, hear, walk, remember/concentrate, selfcare (dressing or washing over) or communicate; Global Activity Limitation Index (GALI): 83% of the participants were limited or severely limited in performing activities that people usually do because of a health problem during the last 6 or more months; self-identification: 88% of the participants considered themselves as a person with a visible disability, an invisible disability or both. All participants (n=9591).

## 2 A MAJORITY LIVE WITH DIVERSE AND COMPLEX DISABILITIES

**72%** had difficulties with  
at least 2 activities :

					
Seeing	Hearing	Walking or climbing stairs	Remembering or concentrating	Selfcare	Communication

 Percentage of people with rare diseases who had 'some difficulties', 'a lot of difficulties' or 'could not do at all' in at least 2 domains of the WGSS - All participants (n=9591); The six domains of the Washington Group Short Set on Functioning (WGSS).

### 3 PEOPLE WITH RARE DISEASES DO NOT RECEIVE ADEQUATE SUPPORT...

53%

found it difficult or very difficult to obtain publicly funded support such as attendant care support, home support, financial support, assistive technology, mobility aids or other support.

'How difficult do you find it to obtain State support such as attendant care support, home support, financial support, assistive technology, mobility aids, etc.?' - All participants (n=9,591).

### 4 ...AND THEY DO NOT TAKE PART IN SOCIETY ON AN EQUAL BASIS WITH OTHERS

Most people with rare diseases experienced discrimination:

58%

experienced discrimination related to the rare disease or disability in healthcare, in employment, in education, in housing, in public accommodations or in other places.

Percentage of participants who answered 'In healthcare', 'In education', 'In employment', 'In housing', 'In other public accommodations (hotel, restaurants, transport, museums, etc.)' or 'other' to 'Have you ever experienced discrimination related to the rare disease or disability?' - All participants (n=9 126); answers 'I don't know' were not included.

Unemployment of people with rare diseases is higher than in the general population:

23%

of people with rare diseases are unemployed

Comparison: the unemployment rate in the general population of the European Union was **6.1%** in 2023<sup>1</sup>.

Percentage of participants aged 16-64 who answered 'Unemployed' or 'Cannot work because of a disease' to 'What is your current situation?' (n=5332).
