Endorsements

- 6 endorsed events for the whole 2024
- 11 endorsed events for 2025 so far
- **NOTE** for those interested in receiving an Endorsement:
 - General requirements of the Network
 - Follow-up info required

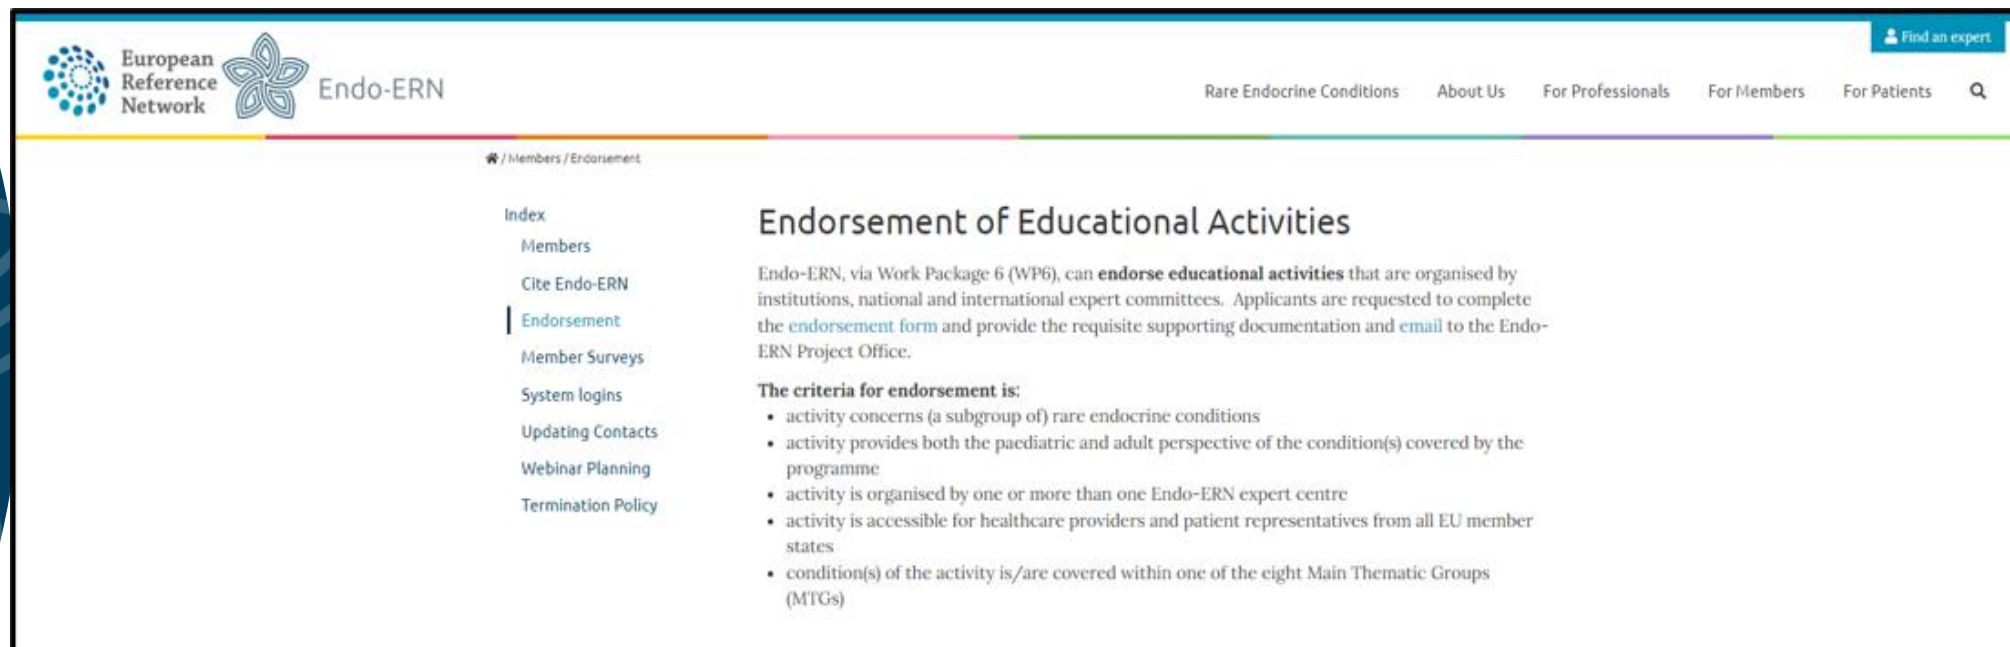

Members can apply for endorsement of their locally organised educational events

Endorsed events are promoted on the Endo-ERN channels

Application should be received at least **6 weeks** before the event

All criteria can be found on the website: <https://endo-ern.eu/members/endorsement/>

The screenshot shows the Endo-ERN website interface. At the top, there is a navigation bar with the European Reference Network and Endo-ERN logos on the left, and a search bar with the text 'Find an expert' on the right. Below the navigation bar, there is a horizontal menu with links: 'Rare Endocrine Conditions', 'About Us', 'For Professionals', 'For Members', and 'For Patients'. The main content area is titled 'Endorsement of Educational Activities'. It includes a sidebar with a list of links: 'Index', 'Members', 'Cite Endo-ERN', 'Endorsement' (which is highlighted), 'Member Surveys', 'System logins', 'Updating Contacts', 'Webinar Planning', and 'Termination Policy'. The main text explains that Endo-ERN, via Work Package 6 (WP6), can endorse educational activities that are organised by institutions, national and international expert committees. Applicants are requested to complete the endorsement form and provide the requisite supporting documentation and email to the Endo-ERN Project Office. Below this, there is a section titled 'The criteria for endorsement is:' followed by a bulleted list of five criteria.

Endorsement of Educational Activities

Endo-ERN, via Work Package 6 (WP6), can **endorse educational activities** that are organised by institutions, national and international expert committees. Applicants are requested to complete the **endorsement form** and provide the requisite supporting documentation and **email** to the Endo-ERN Project Office.

The criteria for endorsement is:

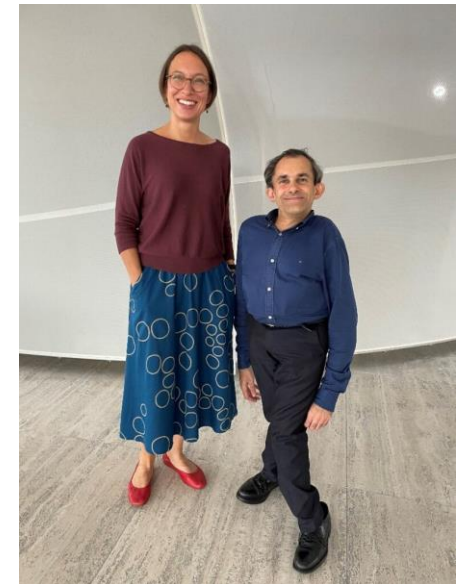

- activity concerns (a subgroup of) rare endocrine conditions
- activity provides both the paediatric and adult perspective of the condition(s) covered by the programme
- activity is organised by one or more than one Endo-ERN expert centre
- activity is accessible for healthcare providers and patient representatives from all EU member states
- condition(s) of the activity is/are covered within one of the eight Main Thematic Groups (MTGs)

Clinical Exchange

- 8 free spots for 2025
- 8 Applicants
 - **6 Approved**
 - 2 free spots will be moved to the call for 2026
- **10 free spots for 2026 call**
- Call 2026 will open in the end of the year-October-November?

Webinars& Accreditation

Webinars

- **12 webinars** were organized in 2024 (some between 2 MTGs)
- **8 webinars** planned for 2025 so far
- **REMINDER:** MTGs need to provide a minimum of 2 webinars per year-omitting summer months (mid-July-August)
- Organizing a webinar needs to be reported to WP6 **at least 6 weeks in advance**
- **NOTE:** The earlier a webinar is organized:
 - the more registrants it has
 - the higher the chance to apply for accreditation

Webinars per MTG for 2024

MTG1	3 Webinars
MTG2	2 Webinars
MTG3	2 Webinars
MTG4	1 Webinar
MTG5	1 Webinar
MTG6	1 Webinar
MTG7	4 Webinars
MTG8	1 Webinar

Accreditation

- Preparing for accreditation pack
- Accreditation means more registrants and attendees
- Minimum 5 webinars per accreditation pack

Webinars for 2024

MTG	Title	Registrants
1/7	Gonadal dysfunction in males with CAH	64
8	The differential diagnosis of discrepant thyroid function test webinar	77
6	SOD (septo-optic dysplasia) Clinical Management and Patient Needs	93
1/7	Pregnancy management in CAH	56
3	The mysterious links among cilia, centrosomes and insulin resistance: What have we learned from human genetics?	28
4	Multiple Endocrine Neoplasia Type 2: New insights from childhood to adult	84
2	Fibrous Dysplasia with emphasis on hypophosphataemia webinar	85
7	Turner syndrome and fertility options	162
3	SWEET-the role of a worldwide registry to investigate rare diabetes	33
1/2	APS1/APECED: A Treatable IFN- γ -opathy	133
7	The new genetics of Turner syndrome webinar	83
5	Management of genetic obesity and food seeking behaviour e.d. in BBS/ALSTRÖM/PRADER WILLI syndromes / use of GLP-1 agonists in these conditions	126

Webinars for 2025 so far

MTG	Title	Registrants
5	Update SGA, GH treatment beyond childhood webinar	76
6	The changing landscape of adult GH deficiency	71
1	Adrenoleukodystrophy: Presentation of two siblings	54
7	Care of adult patients with Klinefelter syndrome	90
7	Long-term outcomes in CAIS	105
1/7	Novel monitoring tools to detect chronic over- or under treatment in children with CAH	52 so far
6	Congenital combined pituitary hormone deficiency in Europe	15 so far
6	Genotype-phenotype correlations in CAH	Planning
