

## Survey on psychosocial consequences of living with a pituitary condition

**Languages at present:**  
English, Dutch,  
German, Arabic, Italian,  
Polish, Portuguese,  
Spanish, Swedish,  
Bulgarian and Ukrainian

- What are the psychosocial consequences of people living with a pituitary condition?
- Does the care available cater to the patient's needs?
- Are there differences in the needs of care between the types of pituitary conditions?
