Network

Endo-ERN

## CPMS – over the years

*Patient discussions in CPMS per year*

**977**

patient cases enrolled

**313**

patient cases discussed

**315**

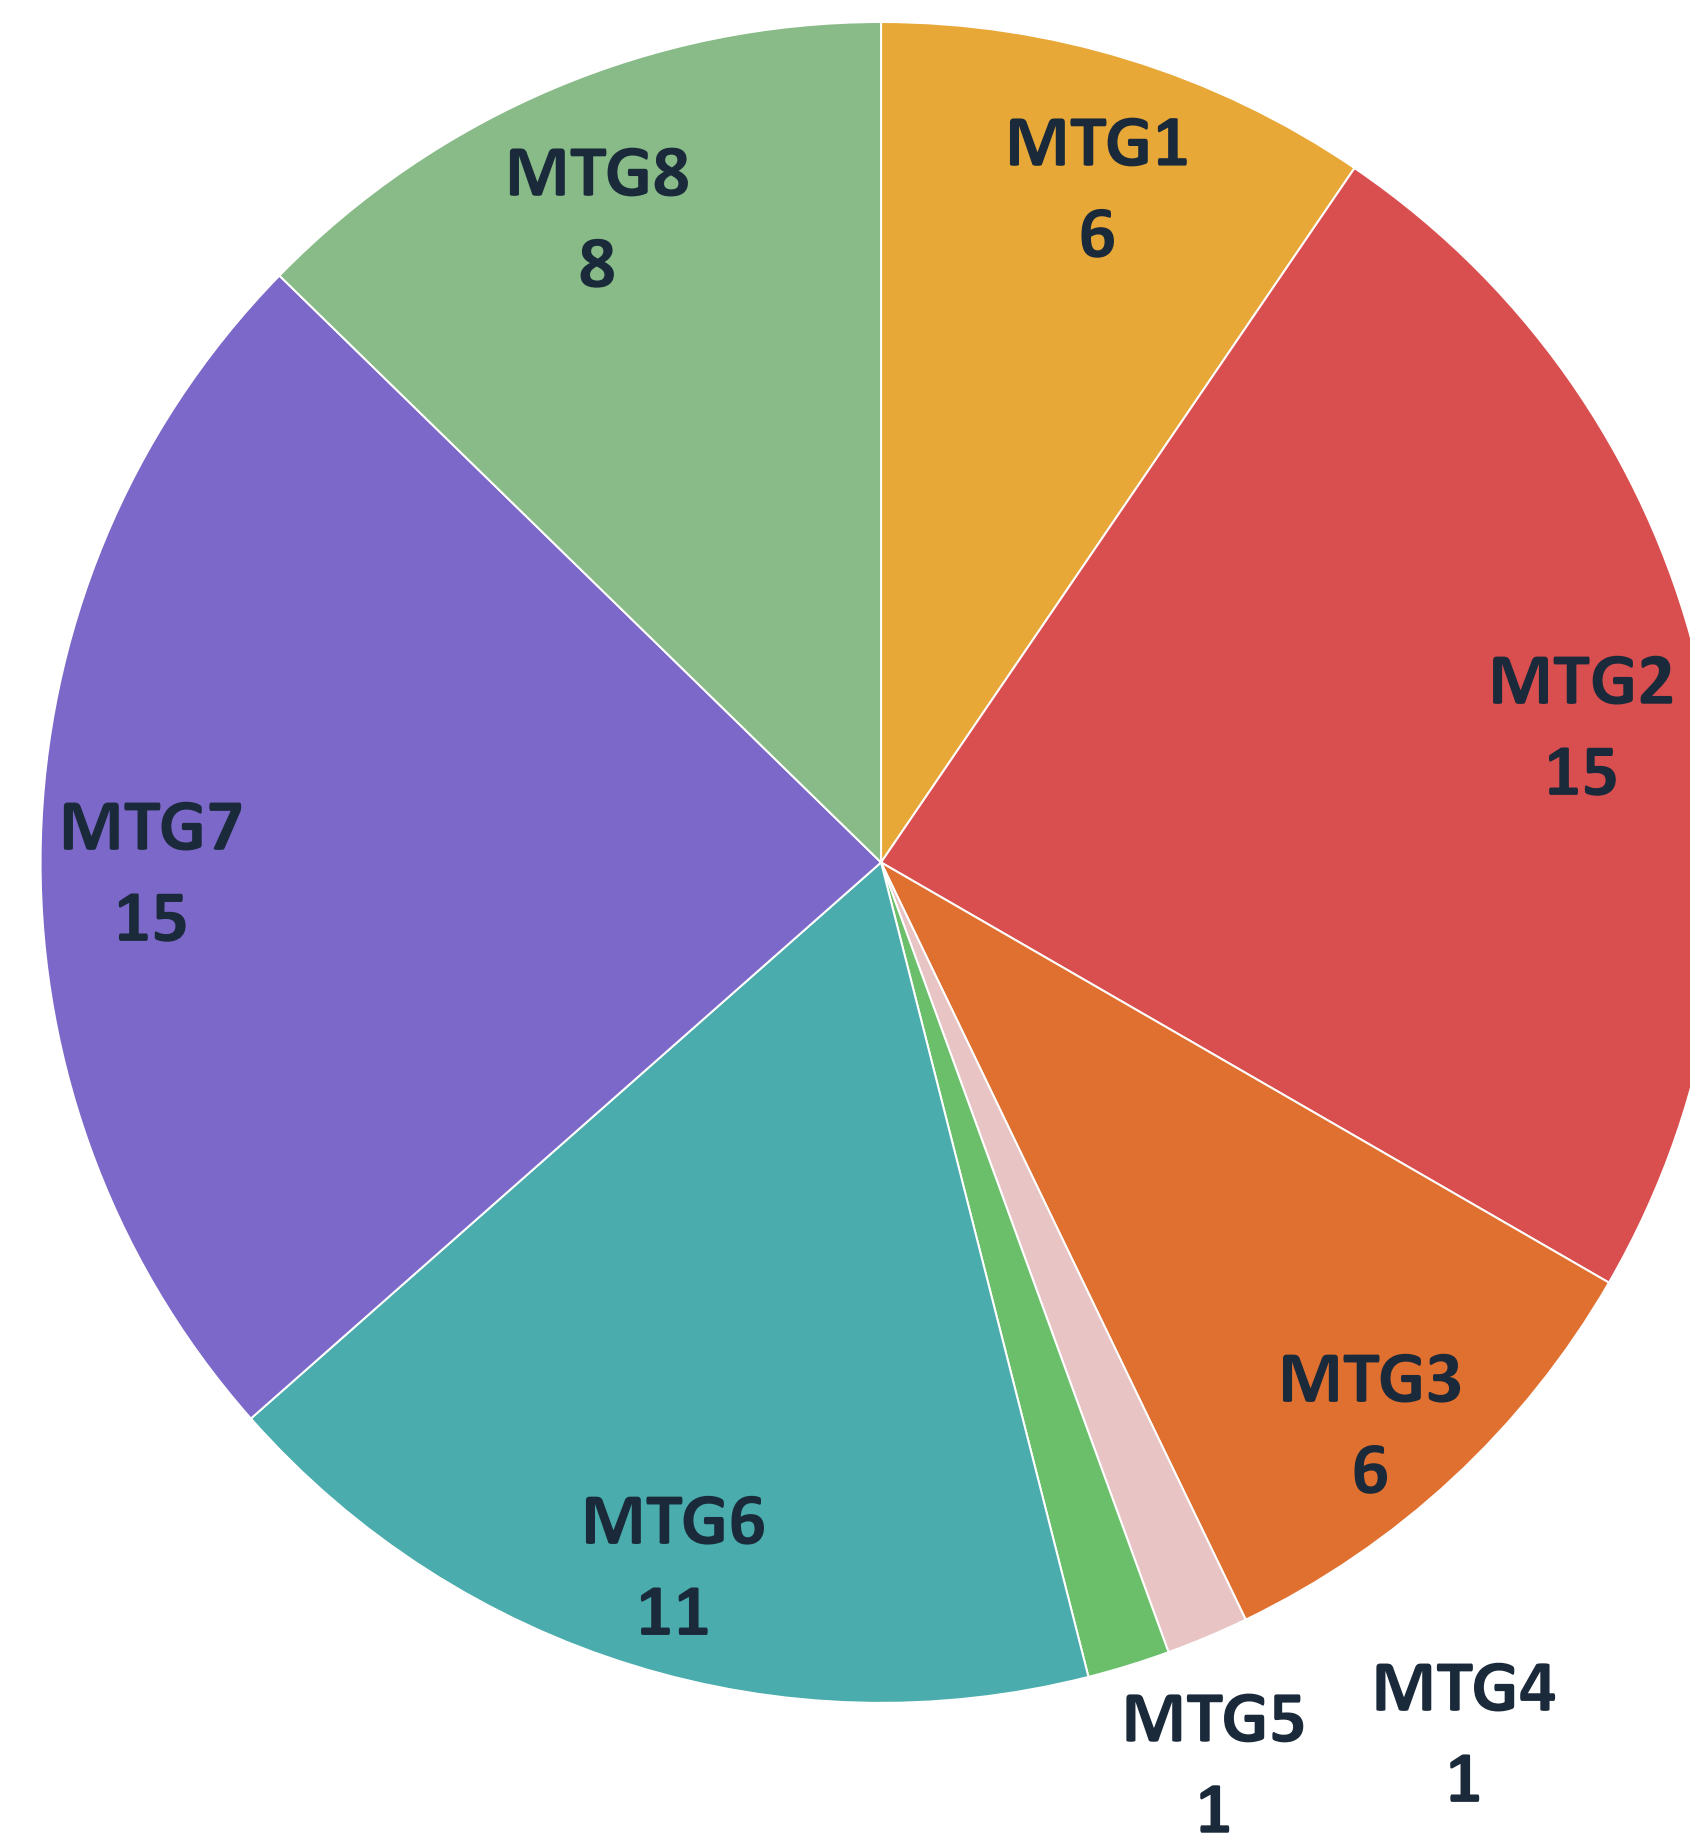

active users to date

## CPMS 2.0 – since 2025

In CPMS 2.0

- 82 new patients enrolled
- 63 case discussions
- 135 new users

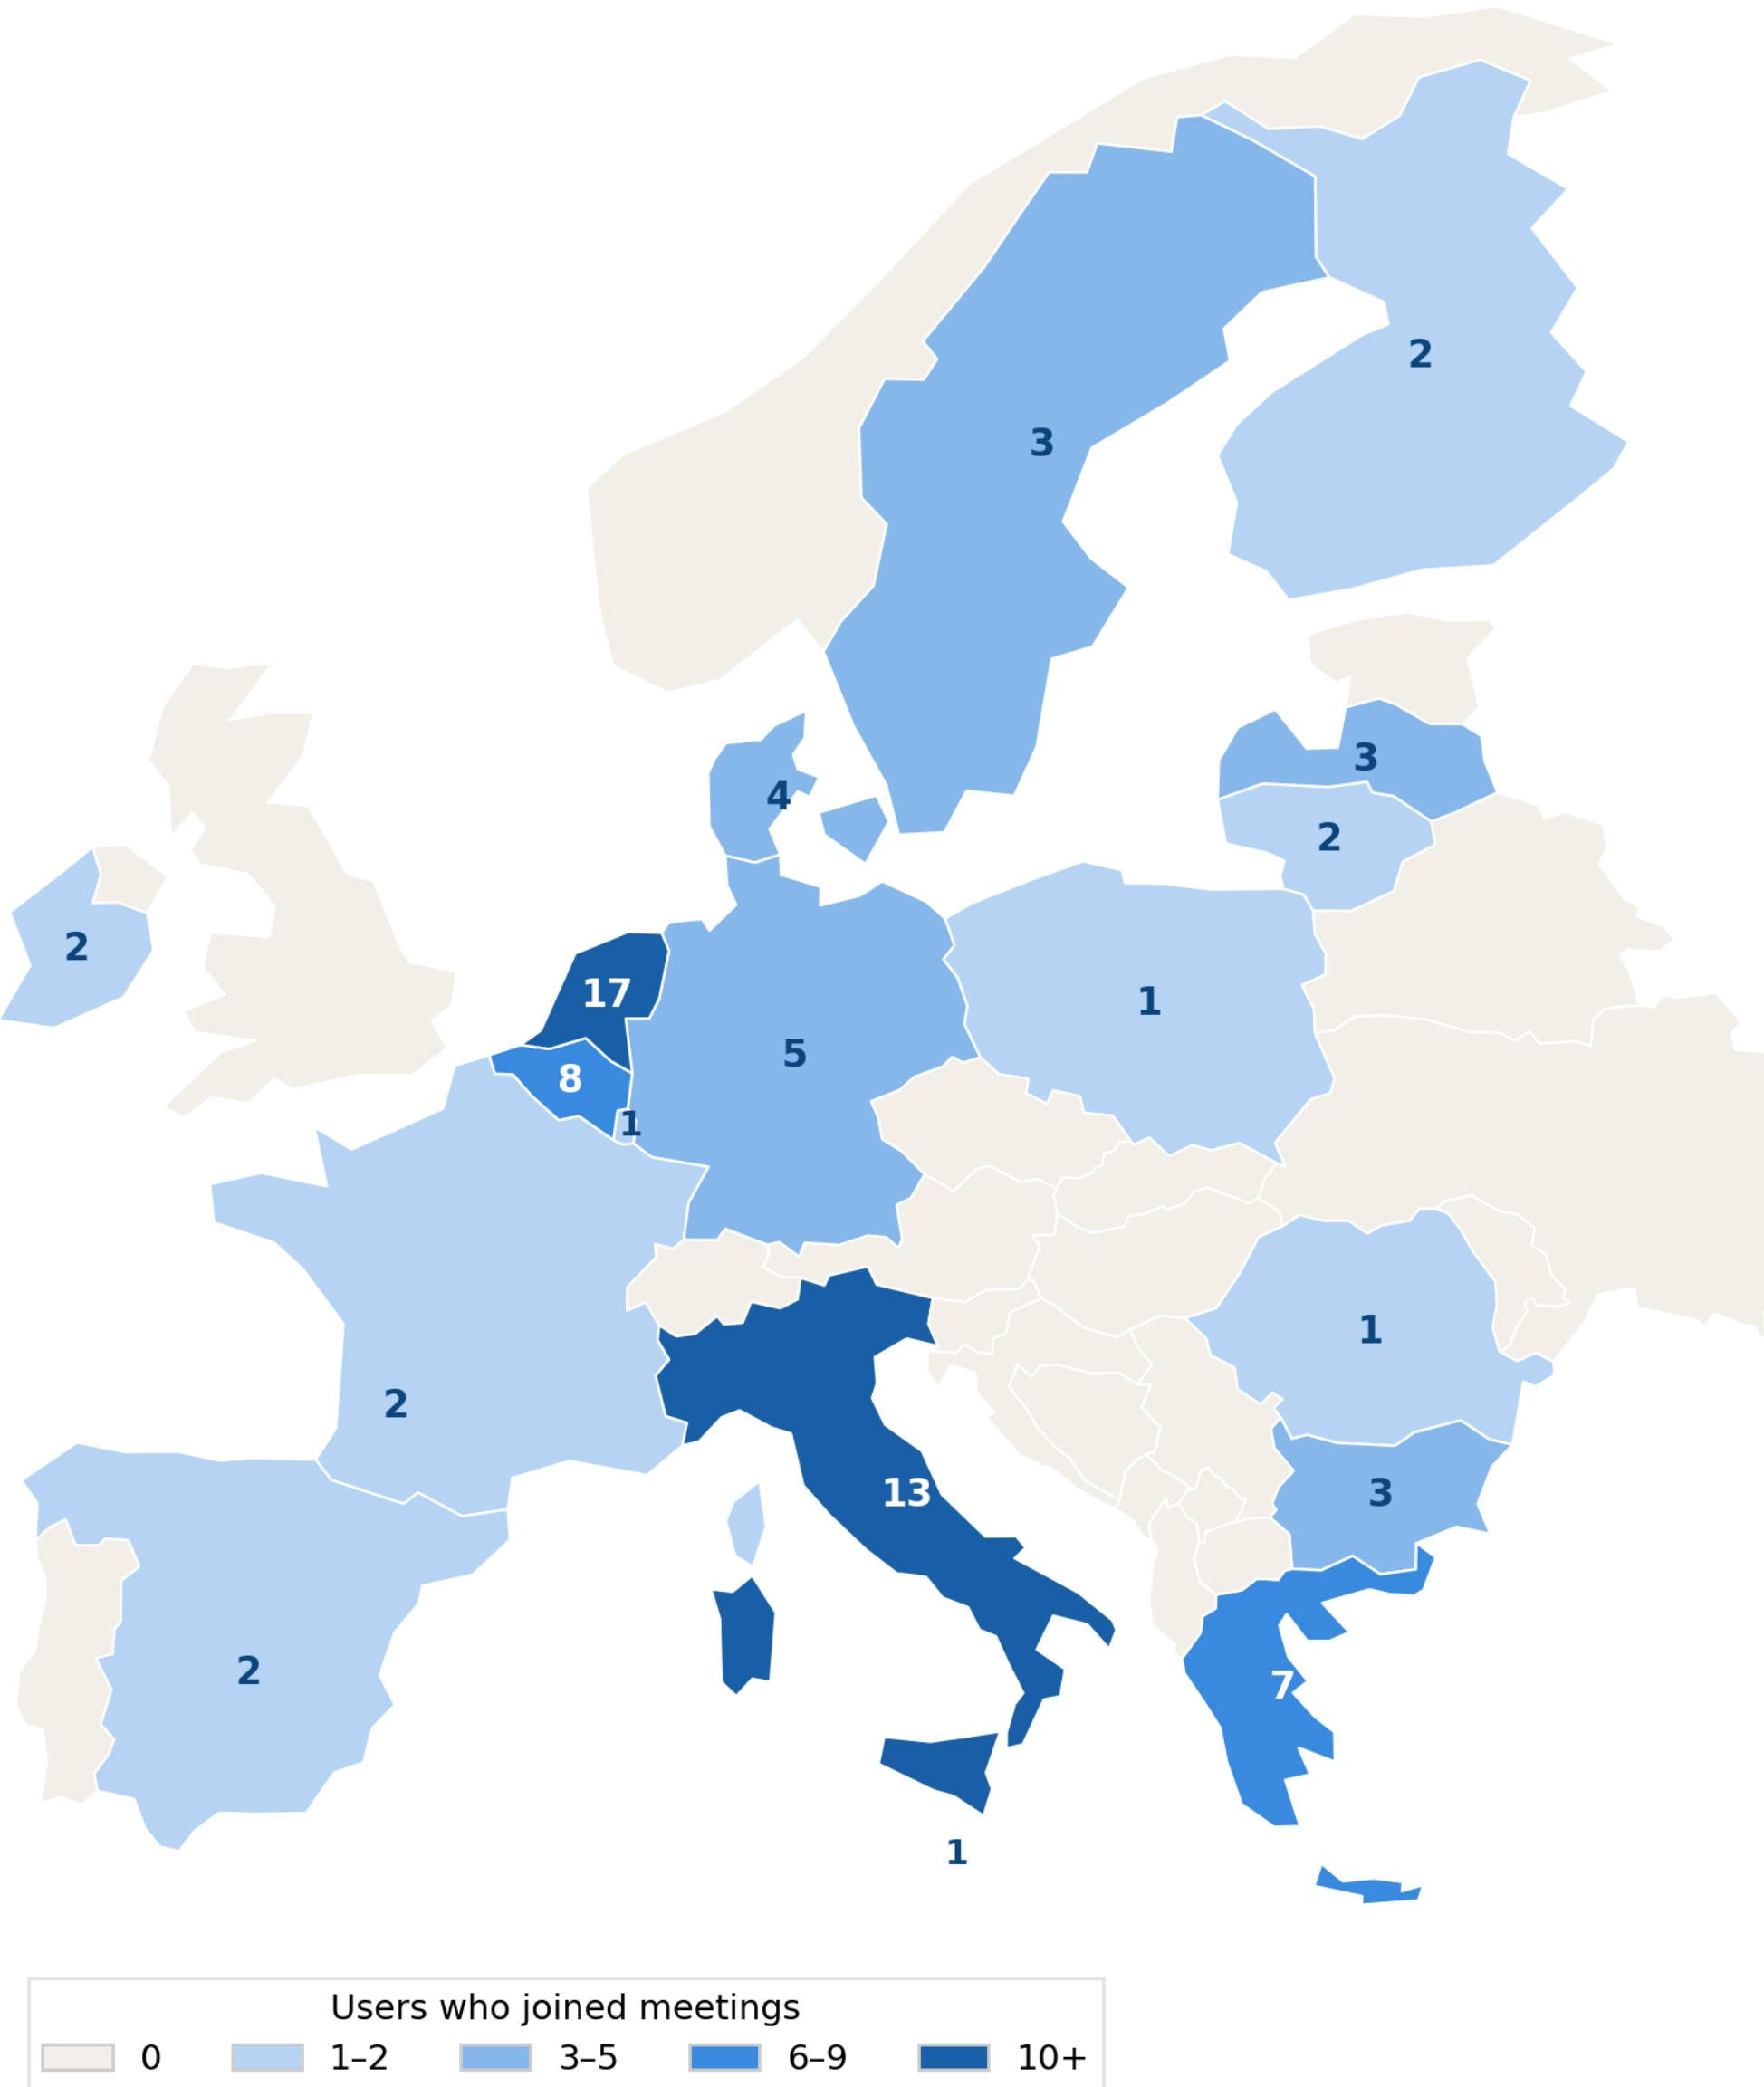

*Patient discussions in CPMS 2.0 per MTG*

# CPMS 2.0 – since 2025

In CPMS 2.0

- 80 meetings held via the system
- 77 users from 18 different countries joined meetings

## DPO Permissions – HCP status

# Practical use cases

## Cross-ERN discussions

- Joint MTG2 + BOND meetings
- Case discussions with MetabERN, ERKNet, Paedcan

## National meetings

Dutch pituitary & hypothalamic MDT via CPMS

*Use CPMS meetings also for general care discussions!*

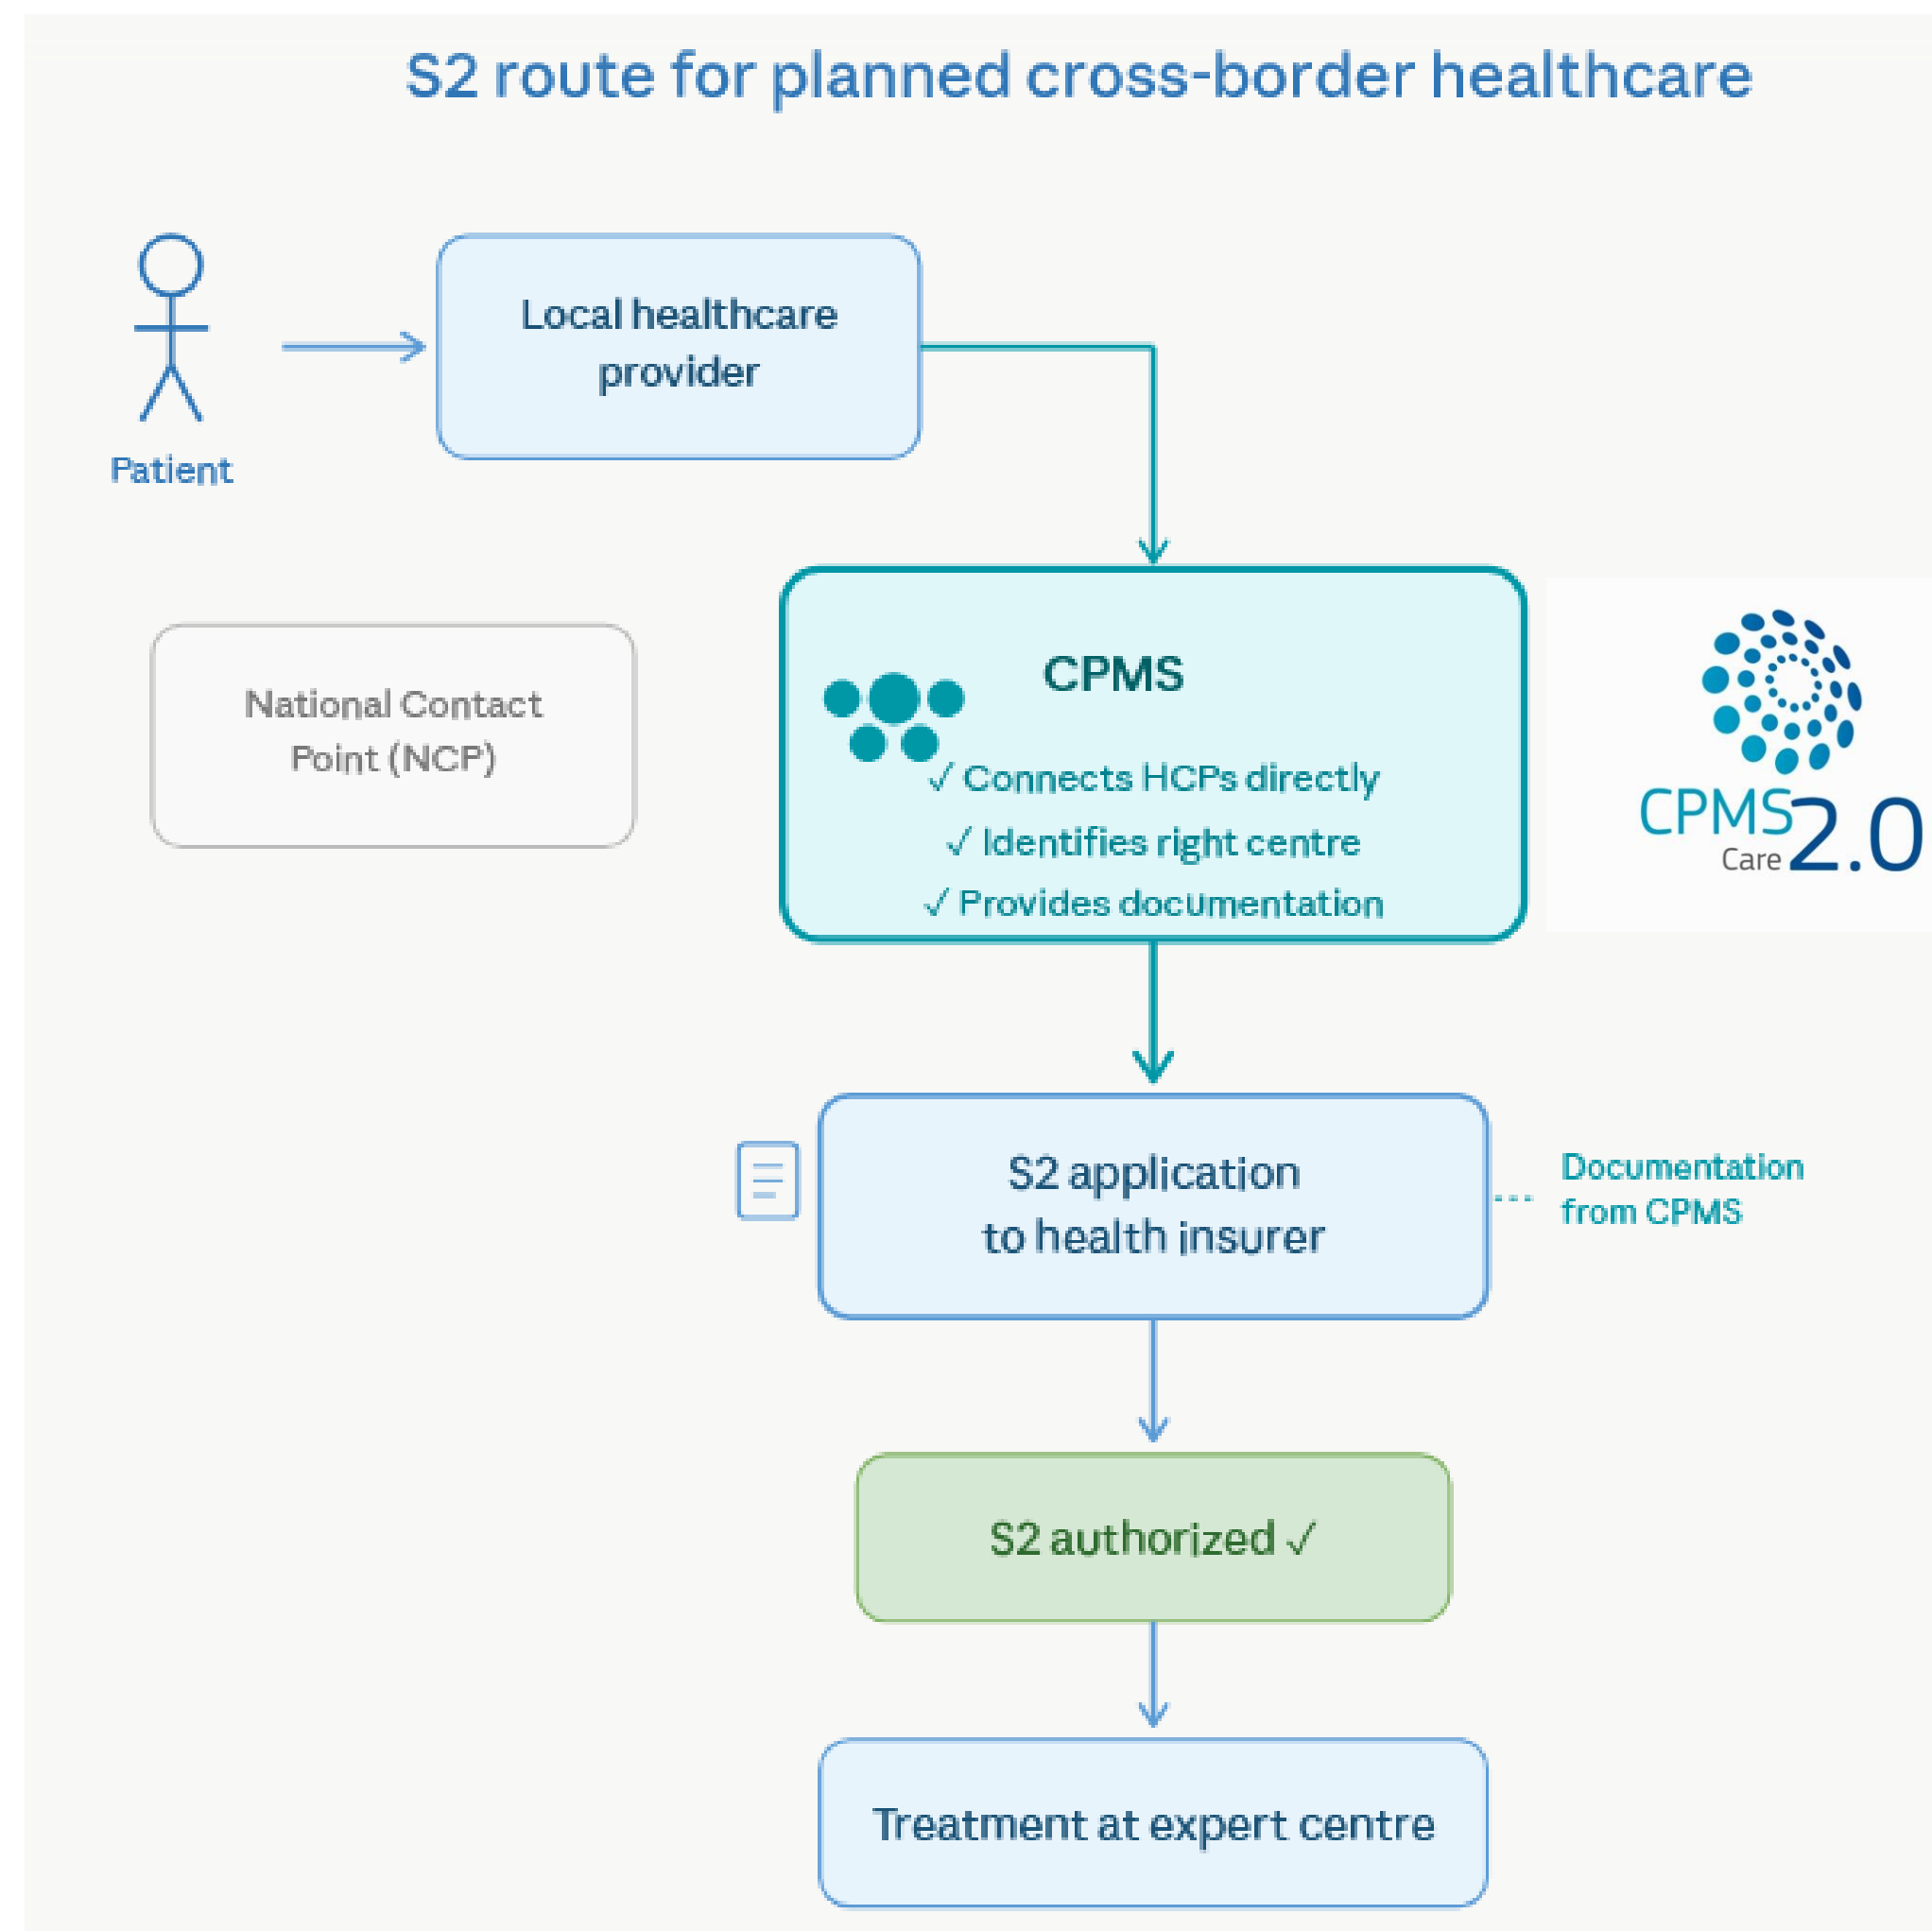

## Cross-border healthcare

Patient referral for treatments

### Example

- 36-year-old Bulgarian patient with recurrent malignant metastatic pheochromocytoma
  - CPMS discussion recommended treatment (PRRT /  $^{131}\text{I}$ -MIBG) which is not available in Bulgaria
  - Panel recommended referral to a specialized Endo-ERN reference centre
- S2 route initiated

## Routes for planned medical treatment abroad

Different routes for cross-border treatment

- S2 route (Regulation EC 883/2004)
- Reimbursement model (Directive 2011/24/EU)

# CPMS 2.0 – find the right experts

Enroll your patient case → Open a discussion → Invite participants to your meetings
